### IN NORTH TOPEKA

Revival Services Will Begin Sunday, Sept. 27.

Workmen Asked to Donate Labor to Build Tabernacle.

HUNNEWELL TO LEAD THEM

Presbytery Association Meeting Adjourned at Midnight.

Other News of Interest in North Shawnee County.

L. E. Hunnewell of Oak Park, Ill., will begin a series of revival meetings in North Topeka, Sunday, Sept. 27. The churches of that part of the city have organized to hold union services during these meetings. The people of North Topeka are invited to assist the committee by helping build a tabernacle which will seat at least 2000 people.

The people will be asked to donate their services in building this tabernacle. Lumber will be delivered on the grounds during the latter part of the week and on next Monday, ready for the men who will begin the construction. The tabernacle will be on the old Quincey school site, at Gordon and Quincey streets. It will be 64 feet wide and 36 feet long.

Committees representing the five churches in North Topeka and the ministers of each church will meet at the grounds at 8 o'clock to dedicate the grounds and then work on the structure will be started. An effort will be made to complete the superstructure by Wednesday night and all who can are invited to donate their services for these two days. Others who cannot are invited to make financial donations.

The preachers in the various pulpits will renew this invitation next Sunday night. This invitation is extended to all persons and not limited to members of the churches.

The meetings will be conducted by L. E. Hunnewell of Oak Park, Ill. Mr. Hunnewell for a time was associated with Billy Sunday, one of the greatest evangelists in the country and also with French E. Oliver, who conducted revival services in the city recently. Mr. Hunnewell comes here highly recommended and is endorsed by Billy Sunday, Mr. Oliver and a number of other men who are prominent in such work.

A chorus of 120 or more voices is being recruited for these services. In addition to the soloists, members of the choir of the five churches of North Topeka are now being trained and practicing selections for these services. It is believed that the outside work, or all but the finishing touches, can be done on the tabernacle next Tuesday.

day and Wednesday. Then will follow the inside work. An effort will be made to advance the work sufficiently to permit the electricians to begin work Friday morning. They will give them two days to do the work.

The ladies of the various churches will aid the workmen while they are building this tabernacle and will serve a picnic dinner under the trees which surround the tract. They will aid them along other lines whenever and wherever possible. The floor of the structure will be covered with sawdust. W. L. Porter, city commissioner of parks, will provide seats to fill the tabernacle. These seats will be removed at midnight Wednesday night. The park season has closed and there is practically no use for the seats so they will be used in this manner.

The services will begin Sunday, Sept. 27, and will continue three or four weeks.

**Presbytery Association Adjourns.**  
The meeting of the Presbytery association, which was held this week was adjourned at midnight Wednesday night. It was thought that it would be necessary to continue the meeting until tonight, but by holding a special session on Wednesday night, it was possible to complete the work. About 70 visitors attended this meeting.

Rev. Harry V. Nelson of Potwin and Mrs. S. S. Estey addressed the meeting on Sunday school work last night. Rev. B. B. McBride of Leavenworth, also addressed the meeting.

The evening hours were consumed by the reports of the general assembly and the committee. Dr. W. A. Powell presided at the final session. Delegates were elected to attend the next synodical meeting, which will be held in Peoria.

Hugh MacFarland, judge of the probate court, will attend the meeting of the North Topeka B. Y. P. U. society at the Baptist church Sunday night. His subject for the evening is "How to Share Our Temporal Blessings."

The meeting of the Ladies Aid society of the Oakland Christian church was postponed this week on account of the fair.

The A. M. Howell family will move the first of next week from Winfield avenue to Lake streets, East Topeka.

**WASHBURN LAW SCHOOL.**  
Enrollment commenced at the law school this morning. Already men are in from three or four other states. The schedule shows that fifty lectures a week will be given by eleven Topeka lawyers. Judge E. R. Simon takes the place of Dr. P. H. Dodge, who resigned. As usual Justice Benson gives the course on code pleading. C. J. Evans will give his regular course.

No definite plans have been made for evening lectures, though quite likely courses on banks and banking and bills and notes will be offered. To meet a demand made by the local bank clerks Dean Arthur reports that things are in the best shape for the opening of school that they have ever been.—Adv.

**IS YOUR HAIR RIGHT FOR THE NEW FALL STYLES?—By Lela**

You will delight in arranging your hair in the new and interesting modes of this season if you are among those who keep their hair perfectly soft and appearing naturally heavy by use of a shampoo that makes it very fluffy. Do not take chances with some makeshift or unknown soap mixtures. I have tried many in search of the best, cheapest and easiest to use and finally have decided to always use canthors, which is made for shampooing only and is so beautifying in its effect upon the hair. I get it at any good drug store and one package lasts as long as I can get it. My first trial convinced me that it was the most easily used. In clearing the scalp and hair of all dandruff, dirt and excess oil, it delicately perfumed lather gently permeates to the hair roots and not only takes loose dirt but dissolves all the oil accumulations so they are rinsed out instead of being rubbed and squeezed out, as with soap and so many cheap shampoos. My hair is now so fluffy that it seems much heavier than it is naturally.—Adv.

### GAIN IN SCHOOLS

First Day's Registration in Topeka Was 7,671.

Increase of Nearly One Hundred Over Last Year.

The report of the attendance for the first day in every school in Topeka has been filed with H. B. Wilson, superintendent. On the first day, 7,671 students enrolled, compared to 6,975 for the first day of 1913.

Several schools fell below last year's average, but most of them have an increased enrollment this year. Of course, after the first week, there will be many students of both high school and grade schools who will report, as a large per cent prefer to remain out of school at first, to attend the state fair.

There were 1,180 enrolled for the high school Monday, as compared with 1,155 for the first day of the fall term last year. However, the number of high school students is expected to reach 1,440 before the week is over.

Following is a comparison of the attendance for the first day of this term and of last year's first day:

Schools	1914	1913
High school	1,180	1,155

### THE E-9 DID IT.

Submarine Crew Tells of Sinking of German Cruiser Hela.

London, Sept. 17.—The Harwich correspondent of the Daily Telegraph sends this story of how the German cruiser Hela was destroyed, as told by one of the crew of submarine E-9:

"In the early hours of Sunday morning three or three British submarines were stalking the Hela about six miles off the German coast. The wind was freshening and the sea was beginning to state rough. The E-9 came to the surface at half past 6 o'clock and sighted the enemy, which was seen to be within range.

At a possible speed the E-9 dived and at a suitable depth launched two torpedoes at intervals of fifteen seconds. Whether both struck is not definitely known, but one of them certainly was effective as the explosion followed.

The E-9 remained below about a quarter of an hour and then came to the surface briefly for a survey which showed the Hela listing badly. There were other German ships in the vicinity but none were active fighting units.

The submarine prudently dived again once. After an interval of something over a quarter of an hour, it came to the surface again but the Hela had disappeared. The submarine got away safely but was unable to make a report of her achievement to the admiralty until today when she first got within her wireless range.

The submarine crew say the boat was never seen by the enemy either before or after the blow was struck.

**What Thin Folks Should Do To Gain Weight**

Physician's Advice for Thin, Underdeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs, who, having tried advertised diet-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long thinness and think nothing will make them fat. Yet their cause is not hopeless.

A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this powerful preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. Arnold Drug Co. and other leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has given splendid results as a nerve-tonic and vitality, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.—Adv.
